

## Do you currently have an in-house staff performing basic lawn maintenance services on your campus? Do you find that you do not have the time, resources or staff to get the job done appropriately?

This is a current trend that we are frequently discussing and engaging with a number of Facilities Managers. EA Quinn's Operations Manager Matt Bagshaw and Landscape Maintenance Manager Scott Pinney have come up with some very creative solutions for this type of situation. Resulting in a positive outcome for Facilities Managers by freeing up valuable time for their crews, to keep the properties environment safe for employees and or students.

Here are just a few examples of how EA Quinn is supplementing various landscape maintenance functions for our clients:

- **Fertilization** - Our in-house staff is licensed by the State of CT and educated on all the latest techniques, products and applications.
- **Mulch** - Our mulch trucks can apply mulch accurately and efficiently.
- **Landscape Detail** - Let the experts at EA Quinn come in on a weekly, bi-weekly or monthly basis to handle the weeding, edging, pruning, and plant healthcare.
- **Creating a "WOW" Factor** - EA Quinn has an in-house landscape design team that can create customized floral and plant designs that will make your campus look more inviting and appealing throughout the entire year.
- **Mowing** - Perhaps your need is more basic and you need assistance with mowing. Consider dividing the Campus up and awarding a portion of the mowing to EA Quinn.
- **Snow Management** - Whether you need more equipment to move snow faster or you need assistance with detail work like snow relocation and removal, EA Quinn Landscape Contracting can be of assistance.

If you find yourself in a position of needing more hours to maintain your campus, please contact EA Quinn at [info@eaquinn.com](mailto:info@eaquinn.com) to discuss all of your property's landscaping needs.

## What Sets E.A. Quinn Apart?

**1. State of the art equipment** – Our investment in the best tools and the staff to maintain them leads to less breakdowns with 99 percent uptime.

**2. Full-time mechanics on staff** – Our skilled team operates under a preventative maintenance philosophy. If necessary, we are capable of on-site repairs with our mobile service truck.

**3. Highly trained staff** – Employees frequently attend seminars on best practices, latest trends and proper equipment use. Our knowledge and attention to detail outpaces the competition.

**4. Professionalism** – All trucks/equipment are labeled and painted in company colors. Employees are all uniformed and dressed equally.

**5. Safety** – Safety is highly important to us. All employees attend weekly safety meetings. Employees are equipped with all necessary safety equipment (vests, gloves, equipment has strobe beacons and back up alarms). All employees are OSHA-10 certified. All employees must pass a background check and pass drug/alcohol testing.

**6. Communication** – All customers are assigned an account manager with a direct contact phone number. Your account manager will be the primary point of contact and will be available to you and your team 24/7. We do not leave a site until the manager is happy with all work.

**7. Cost Conscious** – We take a practical and fiscally responsible approach to all of our customer's property maintenance needs.

**8. Proactive** – We utilize a continuous improvement philosophy with our goal being to build an intimate knowledge of the property. We strive to anticipate our clients' needs and address them in a timely manner.
